

We proudly present a fun after school program. The Baking Coach offers baking, cake decorating classes that do not require a kitchen, and provides hands on learning and fun! Students will sharpen their math and reading skills by reading and following recipe directions that explore measurements, weights, fractions, division, multiplication, adding and subtraction. They will also express their artistic and creative side through decorating and being able to play with their food. During the program, each child receives an apron, baker's hat, and will take home their treats in a bakery box along with a recipe to enjoy with their families and friends forever.
